Warning: When handling a firearm, always follow the proper handling procedures at all times. Failure to follow these procedures could result in serious damage, injury, or death. We are not responsible for damage to property, injury, or death resulting from improper installation, misuse or modification of products. If you are not comfortable completing any of the following steps, or do not have the proper tools enlist the help of your local gunsmith. We are not responsible for components that are damaged due to improper installation.

Important note about this step

1
Begin by pressing the adjustment lever as seen in Figure 1.

4
While holding the adjustment lever down as seen in Figure 2, slide the stock onto the buffer tube as seen in Figure 3 to complete your installation.

2
Next, grab the adjustment lever with your thumb and index finger and pull down as seen in Figure 2.

3
NOTE: DO NOT TRY TO PULL THE ADJUSTMENT LEVER FROM THE REAR AS SEEN IN FIGURE 3 AS THIS MAY CAUSE THE LEVER TO SNAP.
