MAGPUL[®] ESK - CZ SCORPION[®] EVO 3

MAG1176 - ESK - CZ SCORPION[®] EVO 3

TOOLS NEEDED:
1.5mm hex wrench

WARNING: IMPROPER INSTALLATION AND/OR IMPROPER USE OF THIS PRODUCT MAY CAUSE WEAPON MALFUNCTION. WEAPON MALFUNCTION MAY CAUSE SERIOUS INJURY, INCLUDING GRIEVOUS BODILY HARM AND/OR DEATH.

INSTALLATION INSTRUCTIONS

! WARNING: BEFORE STARTING, MAKE SURE THE WEAPON IS UNLOADED, THE CHAMBER IS EMPTY, AND THE WEAPON IS ON SAFE.

REMOVE TRIGGER UNIT CASING

Remove the *Trigger Unit Case (lower receiver)* from the *Upper Receiver* in accordance with the *CZ Scorpion EVO 3 S1 Instruction Manual*. Once the *Trigger Unit Case* is removed, set the safety selector to "FIRE" in order to access the *mounting screws*.

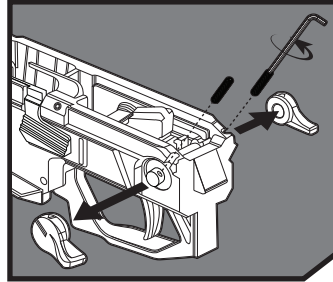

SELECT LEVERS

The *Magpul ESK - CZ Scorpion[®] EVO 3* kit is comprised of 6 components:

- 2 each **Extended (Left & Right)**
- 2 each **Short (Left & Right)**
- 2 each **Caps (Left & Right)**
- Mounting hardware

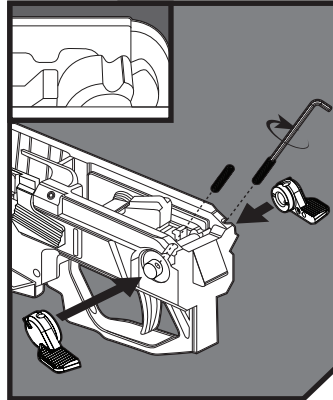

Once the desired combination is selected, set those components aside along with the *ESK - CZ Scorpion[®] EVO 3 Hardware Kit* provided in the package.

STEP 1: REMOVE SAFETY SELECTOR LEVERS

Using a 1.5mm hex wrench, remove the safety selector levers and mounting screws and discard.

STEP 2: INSTALL ESK - CZ SCORPION[®] EVO 3

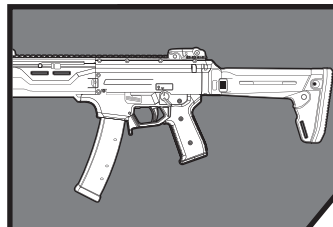

Press the desired *ESK - CZ Scorpion[®] EVO 3 levers* onto the factory safety plug, ensuring they are fully seated, and the *Scorpion trigger case detent tab* is seated in the *safety plug detent slot*.

Using a 1.5mm hex wrench, insert the screws from the *ESK - CZ Scorpion[®] EVO 3 Hardware Kit* and tighten until flush with the *ESK levers*.

WARNING: Do not exceed 5in-lbs as damage to the *Magpul ESK levers* and/or weapon may occur.

STEP 3: VERIFY INSTALLATION

Perform final inspection per *CZ Scorpion EVO 3 Instruction Manual* to verify proper weapon function.

Always test fire your weapon before using it in an operational environment.
