BUILD WHAT THEY NEED, NOT WHAT THEY WANT

*Our Foundations have always defined how we operate.
When it comes to new products, we're singularly focused on
how we can bring value, not answering the loudest voice.*

We come up with a lot of ideas for a lot of new products, and we hear from our customers about others. As a group of diverse firearms enthusiasts and as a business, we consider—or have already considered—the viability of most of these ideas, plus many more. Whether it's an accessory for a firearm that solves a unique problem no one else has addressed, or our take on stand-alone gear that nests within our cultural ethos, we're all about the value. That value is driven by a combination of form, function, quality, reliability and cost. We won't even begin a project if we can't create that value.

At the end of the day, we develop new products when we know we can bring value to the overall experience and when those products fit into the lifestyle we've established for ourselves and our customers. Sometimes, we still have more great ideas than we have time in the day, so we end up putting a few things back in the hopper until the time is right. But the rest of the time? Take a look at what we're doing in 2020 and you'll see where our minds have been.

AND THAT'S JUST THE FIRST HALF OF THE YEAR.

SHOT 2020

PMAG D-50 EV9

Lightweight but incredibly strong, our PMAG D-50 EV9 is a highly-reliable, 9x19mm Parabellum, 50-round drum magazine for large-format pistols and pistol caliber carbines that feed from CZ Scorpion EVO 3-pattern magazines.

Incorporating many of the proven features of its 5.56 and 7.62 predecessors, the unique drum configuration keeps the height of the magazine manageable, allowing for prone firing and easy storage in a design that cuts down on time-critical reloads. The D-50 EV9 features a ratcheting loading lever that removes tension from the spring for easier loading, a rounds-remaining rear window, and a high-visibility follower. Easily disassembled for cleaning and featuring an innovative bolt hold-open feature, the D-50 EV9 reliably locks the bolt back on empty when used with firearms designed to lock back on CZ Scorpion EVO 3 pattern magazine followers.

MAG1035 - MAGPUL PMAG D-50 EV9

MSRP: \$119.95

FEATURES

- 50-round capacity for carbines and large-format pistols compatible with CZ Scorpion EVO 3 pattern magazines
- Next-generation impact and crush-resistant polymer construction
- Robust stainless-steel internals withstand corrosion and long-term storage while loaded with no loss of function, spring fatigue, or reliability concerns
- Ratcheting loading lever for ease of loading
- Easily disassembled for cleaning
- High-visibility follower and rounds-remaining window
- Paint pen dot matrix

SHOT 2020

PMAG D-50 GL9 - PCC

Lightweight but incredibly strong, our PMAG D-50 GL9 - PCC is a highly-reliable, 9x19mm Parabellum, 50-round drum magazine for large-format pistols and pistol caliber carbines that feed from GLOCK pattern magazines.

Incorporating many of the proven features of its 5.56 and 7.62 predecessors, the unique drum configuration keeps the height of the magazine manageable, allowing for prone firing and easy storage in a design that cuts down on time-critical reloads. The D-50 GL9 - PCC features a ratcheting loading lever that removes tension from the spring for easier loading, a rounds-remaining rear window, and a high-visibility follower. Easily disassembled for cleaning and featuring an innovative bolt hold-open feature, the D-50 GL9 - PCC reliably locks the bolt back on empty when used with firearms designed to lock back on Glock pattern magazine followers.

SHOT 2020

PMAG 10 5.56 AC

AICS SHORT ACTION

The PMAG 10 5.56 AC is a polymer 5.56x45 NATO (.223 Remington) magazine designed for short action Accuracy International Chassis Systems (AICS)-pattern bottom metal, including the Bolt Action Magazine Well for the Magpul Hunter family of stocks.

Designed with many of the same qualities that make our PMAGS the most reliable and durable in the world, the PMAG 10 5.56 AC features GEN M3 technology, including a self-lubricating follower, a stainless-steel spring, and constant-curve internal geometry for smooth feeding. It also incorporates offset feed lip geometry that maximizes bolt face engagement, guaranteeing reliable feeding and solving the bolt face issue common to other AICS-pattern magazines for 5.56 based cartridges. Like our other Magpul bolt action magazines, it features a paint-pen dot matrix for visual identification and a flared base plate for positive control and ease of retrieval. Designed from the ground up to solve the challenges of feeding 5.56/.223, the PMAG 10 5.56 AC sets a new standard for bolt action magazine technology.

MAG1100 - MAGPUL PMAG 10 5.56 AC - AICS SHORT ACTION

MSRP: \$39.95

BLK

FEATURES

- Compatible with short action AICS pattern bottom metal and cartridges built on a 0.378" case head such as 5.56x45 NATO (.223 Remington)
- Offset feed lip geometry designed to maximize bolt face engagement and optimize reliability
- Accepts a cartridge overall length of up to 2.39"
- Single stack, constant-curve internal geometry with 10-round capacity
- Next-generation impact and crush resistant polymer construction
- Self-lubricating follower for increased reliability
- Long-life stainless-steel spring

SHOT 2020

HUNTER 110 STOCK SAVAGE 110 SHORT ACTION

The Hunter 110 stock is the latest addition to the Magpul Hunter stock product line. It features enhanced ergonomics, versions for both right and left-hand actions, eight M-LOK slots for mounting options, and a fully adjustable length of pull and comb height. These features have been optimally designed to provide a more stable shooting platform, improved user comfort and individual accessory customization. Like its predecessors, the Magpul Hunter 110 features a Type III hard anodized, machine-finished, cast aluminum bedding block that doesn't require bedding and is a true "drop-in" stock solution.

The Hunter 110 is designed for 3rd generation Savage short action series 10/110 centerfire rifles, with center-feed magazine compatibility, and action screw hole spacing of 4.40". The Hunter 110 also includes our Bolt Action Magazine Well – Hunter 110 and one PMAG 5 7.62 AC for optimal functionality with detachable box magazines that don't require custom inletting.

MAG1069 - HUNTER 110 STOCK – SAVAGE 110 SHORT ACTION

MSRP: \$299.95

BLK - FDE - ODG - GRN

FEATURES ON NEXT PAGE

FEATURES

- Compatible with 3rd generation Savage short action Series 10/110 centerfire rifles that have center-feed magazine compatibility and action screw hole spacing of 4.40" (H-prefix and later) with production date as of 2006 and later
- One Bolt Action Magazine Well – Hunter 110 (required for stock and magazine compatibility) and one PMAG 5 7.62 AC included for reliable detachable box magazine compatibility
- Reinforced polymer construction with Type III hard anodized, machine-finished cast aluminum bedding block
- Available for right and left-hand actions, a first for the Hunter product line
- Compatible with barrel profiles up to Heavy Palma and Savage Varmint barrel contours and tapered beam design provides rigidity through the forend and will free-float compatible barrels
- Eight M-LOK slots on forend sides and bottom for a wide variety of accessory and sling mounting options (three slots on each side and two on the bottom of the stock)
- Left and Right rear 1-1/4" Footman's Loops on stock body
- Accepts most factory and aftermarket curved and flat bow triggers
- Compatible with side and bottom bolt release models

SHOT 2020

PC BACKPACKER STOCK

RUGER® PC CARBINE

The Magpul PC Backpacker Stock for the Ruger® PC Carbine is the ultimate option for those wanting to bring advanced ergonomics and portability to their Ruger® PC Carbine rifle. With a similar look and functionality as our X-22 Backpacker stock, it offers a minimalist solution for the hunter or outdoorsman and was designed for those who want to transport their carbine in an efficient, convenient package without compromising shooting performance or ease of deployment.

The PC Backpacker is constructed of Magpul's advanced polymer, featuring an ergonomic hand guard with M-LOK slots at the 3 & 9 o'clock positions and interchangeable cheek risers to accommodate for various sighting options. The PC Backpacker stock also features an MOE SL rubber butt-pad offering an anti-slip surface that increases impact protection and is compatible with the MOE SL® Enhanced Rubber Butt-Pad for an additional 3/8" LOP. Its unique locking interface attaches the barrel assembly to the receiver, providing an efficient solution for storage during transportation while maintaining convenient assembly from the stowed position. For storage, there's a water-resistant grip compartment for a small multi-tool, survival equipment, or cleaning equipment and a second compartment in the riser section that's ideal for a single pistol magazine, fitting up to the PMAG 21 GL9.

MAG1076 - PC BACKPACKER STOCK - RUGER PC CARBINE

MSRP: \$149.95

BLK - FDE - ODG - GRY

FEATURES ON NEXT PAGE

FEATURES

- Drop-in design compatible with all factory Ruger® PC Carbine™ models offered in 9mm Luger and 40 S&W
- Unique locking interface to attach the barrel assembly to the stock body when being transported
- Reinforced polymer construction for strength and durability
- Ergonomic M-LOK compatible hand guard
- Interchangeable standard and “opt height” cheek risers included
- Optional QD sling mounting capability
- Water-resistant grip storage compartment
- MOE SL nonslip rubber butt-pad; compatible with the MOE SL Enhanced Rubber Butt-Pad for an additional 3/8” LOP

SHOT 2020

BTR

The Magpul BTR is an AR arm brace designed to improve single-handed employment of large-format pistols. The BTR utilizes Magpul design and engineering to offer a stabilizing accessory with a robust feature set and trusted Magpul quality.

With classic Magpul aesthetics, the BTR is compatible with Mil-Spec carbine receiver extensions and employs a simplified, durable, and easy to use LOP adjustment mechanism. An integrated QD cup and M-LOK compatible slot provide ambidextrous sling mounting options and enable stabilizing sling tension to be applied, drastically increasing single-handed control of the firearm. With a straight-forward design and Magpul innovation, the BTR is a simple solution to improving your AR pistol.

Final firearm configuration subject to applicable federal, state, and local laws.

DAKA

SHOT 2020

EVERYDAY FOLDING WALLET

The DAKA Everyday Folding Wallet is the perfect solution for the person who requires a durable, minimalist wallet that can hold important items securely in all conditions. It's designed to hold up to seven cards securely while also providing a clear protective window for your IDs. The additional external pocket allows for quick access to business cards or folded cash. The Everyday Folding Wallet creates a secure pocket for your cards when it's closed. Cards are inserted from the center seam when the wallet is open, and each side can hold up to three cards. The ID window is perfect for access or ID cards, or anything you don't want to have to repeatedly remove from your wallet. The single external pocket can be used for quick access items, such as business cards or emergency bills.

MAG1095 - MAGPUL DAKA EVERYDAY FOLDING WALLET

MSRP: \$19.95

BLK - FDE - ODG - GRY

FEATURES

- Made of reinforced polymer fabric with anti-slip texture for secure handling
- Strong RF welded construction that creates permanent, impenetrable seals
- Holds up to 7 standard size Credit/ID/DL/Access cards
- External pocket for quick access items
- Slim profile enhances comfort and reduces printing in pocket
- Suitable for EDC (everyday carry) and travel
- Chemical resistant and non-hygroscopic

DAKA

SHOT 2020

VOLUME POUCH

The DAKA Volume Pouch was specifically designed to maximize usable storage space while maintaining a compact footprint. Its intuitive design allows the Volume Pouch to stand vertically on its own and expand up to three liters in size when in use. The wide mouth and water-resistant zippered opening allow the user to insert and remove items with one hand without having to hold it open with the other. The large translucent window makes organizing and locating gear even easier, and a single large carabiner attachment point doubles as a lashing point and carrying handle so your stored gear will always be at hand when needed.

Like our other DAKA pouches, the Volume Pouch is made from polymer-infused textiles that are RF-welded on all seams and use water-resistant zippers. The construction methods and materials we use mean that our DAKA pouches are at home in hard use applications such as tool storage, as well as for lighter duties such as organizing your personal electronics.

MAG1101 - MAGPUL DAKA VOLUME POUCH

MSRP: TBD

BLK - FDE - ODG - GRY

FEATURES

- Reinforced polymer fabric with anti-slip texture
- Welded construction creates permanent impenetrable seals
- YKK AquaGuard water repellent zipper
- 550 paracord with heat shrink tubing for enhanced grip, even with gloves
- Paint pen dot matrix debossed into body for identification marking
- Carabiner attachment point

DAKA

SHOT 2020

FIELD TRAY

Crafted from our durable DAKA material, our Field Trays have the durability, flexibility, and strength that can withstand even the most extreme conditions. By simply snapping the four corners of the flat tray together, you create a walled, contained workspace that keeps your items in one enclosed area. The inside of the Field Tray sheds dirt, oil, and debris, ensuring that the surface remains clean and unblemished. A strong magnet located under the Magpul icon retains small metallic items such as springs, bolts, pins and screws, ensuring that you won't lose anything important to the job at hand. When not in use, the Field Tray can be un-snapped for flat storage. It's perfect for gun cases, backpacks, and range bags.

MAG1099 - MAGPUL DAKA FIELD TRAY SMALL

MSRP: TBD

BLK - FDE

MAG1125 - MAGPUL DAKA FIELD TRAY LARGE

MSRP: TBD

BLK - FDE

FEATURES

- Made of reinforced polymer fabric with anti-slip texture for secure handling
- Strong RF welded construction that creates permanent, impenetrable seals
- Chemical resistant and non-hygroscopic
- Magnetic floor to retain small parts

EYEWEAR

At Magpul, we've always felt strongly about eyewear because the need for reliable eye protection is rooted in our daily lives. Whether we're at work or at play, we understand the demand for good-looking, impact-proof eyewear that protects us across a range of activities. As a result, we've created ballistic rated eyewear that's engineered from quality materials and finished with an enduring design.

FEATURES

- The frames are constructed of TR90NZZ, combining rugged strength, ballistic protection and flexibility with maximum overall coverage
- Lenses are designed for maximum impact protection and have been tested to MIL PRF 32432 ballistic standards
- Polarized and non-polarized lens options available, along with a variety of lens color and mirror combinations for every situation and activity
- Oleophobic coatings on the lenses repel water and provide oil, sweat, sunscreen, and other chemical protection
- Low profile temple design maintains comfort and function while wearing hats or over the ear hearing protection
- All models include anti-slip rubber nose and temple pads

Ballistic eyewear with a large, 8 base frame and a comfortable all-day fit, the Apex is designed for all occasions

BIPOD - SLING STUD QD

The Magpul Bipod – Sling Stud QD is the next offering in the Magpul bipod line. Designed to mount to the ubiquitous Uncle Mike's Sling Swivel Stud that is common to nearly every sporting rifle made, the Magpul Bipod – Sling Stud QD is the strongest, most fully featured bipod available with direct sling stud mounting capability.

The stainless-steel mounting system self-locates and aligns perfectly every time, and an ergonomic thumb wheel allows for excellent grip to ensure easy tightening. Additionally, two sizes of high-durometer rubber mounting gaskets are provided to ensure optimized fit and load distribution on narrow sporter-contour or wider target-style foreends. The ability to mount a sling on the forend is maintained with a low-profile sling stud on the rear of the Sling Stud QD mount, which also provides for a quick detachment when it's needed.

MAG1075 - MAGPUL BIPOD - SLING STUD QD

MSRP: \$129.95

BLK - FDE

FEATURES

- Rapid leg deployment with efficient single-handed adjustability
- Rapid-attach, self-locating stainless-steel mounting system mounts to Uncle Mike's Sling Studs on narrow or wide fore ends, while also providing a quick detachment capability
- High strength reinforced injected molded polymer, Steel and Mil-Spec hard anodized 6061 T-6 aluminum construction
- +/- 25 degrees of tilt (about the longitudinal axis of weapon) for a total of 50 degrees
- Uncle Mike's-style sling stud on rear of mounting body
- Adjustable friction knob for setting tilt and ease of movement
- Individually adjustable leg lengths in 0.5" increments for a total of 7 positions
- Removable rubberized feet are compatible with B&T Industries Atlas pattern replaceable feet
- Quiet and positive leg deployment, adjustment and stowage

MAGPUL

HUNTER X-22 TAKEDOWN FOREND RUGER® 10/22 TAKEDOWN®

The Hunter X-22 Takedown Forend is intended for use with additional barrels on rifles currently equipped with the Hunter X-22 Takedown Stock. Made from high quality reinforced polymer, the X-22 Takedown Forend features a reversible barrel tray, ensuring proper fit for factory pencil profiles as well as heavy bull barrels with up to 0.920" outer diameter. It features multiple M-LOK slots for accessory attachment and an adjustable barrel-tensioning shim in the forend for setting barrel preload (the barrel may also be free-floated). It also includes a dimpled drill point at the bottom of the forend for installation of sling swivel studs for bipod or sling swivel use.

MAG1065 - HUNTER X-22 TAKEDOWN FOREND - RUGER® 10/22 TAKEDOWN®

MSRP: \$39.95

BLK - FDE - ODG - GRY

FEATURES

- Compatible with the Hunter X-22 Takedown Stock
- Easy exchange of different barrels for the same rifle
- Reversible barrel tray accepts factory and aftermarket barrels up to 0.92" OD
- Adjustable barrel-tensioning shim in the forend for setting barrel preload (the barrel may also be free-floated)
- M-LOK slots on forend sides and bottom for a variety of accessory and sling mounting options
- Dimpled drill point to install optional sling swivel studs such as the Sling Swivel Stud, MAG819
- Reinforced polymer construction for strength and durability
- Made in the U.S.A.

X-22 BACKPACKER FOREND RUGER® 10/22 TAKEDOWN®

The X-22 Backpacker Forend is intended for use with additional barrels for rifles currently equipped with the X-22 Backpacker Stock, MAG808. Its minimalist design offers a convenient package without compromising shooting performance. It is compatible with factory and aftermarket barrels up to 0.92" outer diameter. Constructed of a durable advanced polymer, the X-22 Backpacker Forend features a unique locking interface to attach the barrel assembly to the stock body when being transported.
