1. SAFETY WARNINGS

Read the instructions and warnings in this manual carefully before handling BRG products for any purpose or reason. Prior to handling BRG products you must be familiar with and follow the information provided in this manual. Please read the instructions for safety and use thoroughly and carefully before handling the firearm. Failure to heed any of these warnings may result in death or serious injury to you or others, as well as severe damage to the firearm or other property. If you need any further information please consult your dealer or the manufacturer.

Please observe all local, state, and federal laws governing the purchase, handling, and use of firearms.

All firearms are dangerous. Therefore, this product is sold to you provided that you comply with all instructions for use. This firearm is sold by BRG with the specific understanding that BRG shall not be responsible in any manner whatsoever for malfunctioning of the firearm, physical injury or property damage resulting in whole or in part from:

- criminal or negligent discharge
- improper, careless, or abusive handling
- unauthorized modifications or parts replacement
- defective, improper, hand-loaded, or reloaded ammunition
- corrosion
- neglect
- other influences beyond our direct and immediate control.

This limitation applies regardless of whether liability is asserted on the basis of contract, negligence, or strict liability (including any failure to warn). Under no circumstance shall BRG be liable for incidental or consequential damages, such as loss of use of property, commercial loss, and loss of earnings or profits.

1.1 ABUSIVE HANDLING

This pistol is designed and manufactured with effective mechanical safeties. However, exposure to abusive conditions may impair the effectiveness of the safety mechanisms and cause them to fail to work as designed. Do not subject your pistol to any type of abusive handling, such as dropping the pistol or allowing it to sustain an impact. If your pistol does suffer an abusive event, do not attempt to use the firearm. Keep the firearm pointed in a safe direction, unload and clear the firearm immediately, and have it inspected by a certified gunsmith prior to using the firearm.

1.2 DISASSEMBLY

Do not attempt to disassemble your firearm beyond the point explained in this manual. Disassembly beyond the instructions in this manual should only be performed by is restricted to a certified gunsmith. Failure to comply with this warning will void your warranty and may result in improper functioning, damage to the firearm, serious injury, or death.

1.3 ALTERATIONS

This firearm was designed to function properly in its original condition. Unauthorized alterations can make it unsafe. Do not alter any part or add or substitute any parts not manufactured by BRG. Alteration or addition of unauthorized parts may result in improper functioning, damage to the firearm, and serious injury or death.

1.4 ACCESSORIES

It is your responsibility to ensure all accessories, such as holsters and firearm mounted lights are compatible with this firearm and that the accessories do not interfere with the safe operation and handling of the firearm. If you are lawfully carrying the firearm concealed, you must ensure that the holster you choose is made for your particular firearm and designed for the type of carry in which you intend to engage

1.5 AMMUNITION

Use only high-quality, original, factory-manufactured ammunition. Do not use cartridges that are dirty, wet, corroded, bent, or damaged. Do not oil cartridges. Do not spray aerosol-type lubricants, preservatives, or cleaners directly onto cartridges or where excess spray may flow into contact with cartridges. Lubricant or other foreign matter on cartridges can cause potentially dangerous ammunition malfunctions. Only use ammunition of the caliber for which your firearm is chambered.

The use of reloaded, "remanufactured" hand-loaded, or other non-standard ammunition voids all warranties. Reloading is a science and improperly loaded ammunition can be extremely dangerous. Severe damage to the firearm and serious injury to the shooter or to others may result. Always use ammunition that complies with the industry performance standards established by the Sporting Arms and Ammunition Manufacturers' Institute, Inc. (SAAMI) or ammunition manufactured to military specifications.

Death, serious injury, and damage can result from the use of wrong ammunition, bore obstructions, powder overloads, or incorrect cartridge components.

1.6 PROTECT YOUR EYES AND EARS

Always wear eye protection that meets the requirements of American National Standards Institute (ANSI) Z87.1 and earplugs or “ earmuff ” type hearing protectors whenever you are shooting. Always make certain that persons close to you are similarly protected. Unprotected eyes may be injured by powder, gas, carbon residue, lubricant, metallic particles, or similar debris that may emanate occasionally from any firearm in normal use. Without proper hearing protection, repeated exposure to shooting noise may lead to cumulative, permanent hearing loss.

1.7 TRANSPORTING

When transporting your firearm, be sure the firearm is unloaded and cleared. It is your responsibility to familiarize yourself with the laws of any state you will be travelling through with your firearm.

1.8 STORAGE

Certain states require that specific regulations be printed in the operator manuals. Those state-by-state regulations and warnings are listed in Section 10 of this manual.

The only safe way to store your firearm is unloaded, cleared, and secure. Safe and secure storage is one of your most important responsibilities. Store your unloaded firearm separate from your ammunition and in places inaccessible to children and unauthorized persons.

1.9 SHIPPING

Before shipping any firearm, be absolutely certain that the firearm and its magazines are unloaded and cleared. DO NOT ship ammunition with a firearm. Failure to follow this warning could result in unintentional discharge, causing severe injury or death, or property damage.

1.10 LEAD EXPOSURE

Discharging firearms in poorly ventilated areas, cleaning firearms, or handling ammunition may result in exposure to lead and other substances known to the state of California to cause birth defects, reproductive harm, and other serious physical injury. Maintain adequate ventilation at all times. Wash hands thoroughly after exposure.

NOTICE: All pictures, photos, and definitions in this manual are provided only for information purposes. The manufacturer reserves the right to apply changes to any model at any time without prior notice as deemed necessary for improving the products or in line with any manufacturing or commercial requirements

2. BASIC RULES OF SAFE FIREARMS HANDLING

2.1 ALWAYS KEEP YOUR FIREARM POINTED IN A SAFE DIRECTION

Never point a firearm at yourself or others. This is particularly important when loading or unloading the firearm. Always be aware of what is behind your target. Whether you miss or hit your target, it is your responsibility to ensure your shot will not cause unexpected injuries or damages.

2.2 ALWAYS TREAT EVERY FIREARM AS IF IT IS LOADED

Do not take anyone's word that the firearm is unloaded - always check for yourself. Assume your firearm is loaded and ready to fire unless you have visually checked that the firearm is unloaded.

2.3 KEEP FIREARM OUT OF REACH OF CHILDREN

It is your responsibility to ensure that your firearm is not accessible to children and other unauthorized persons. It is highly recommended that you store your firearm unloaded and secured with ammunition stored separately. This will minimize the risk of accidents involving children and unauthorized persons.

2.4 NEVER SHOOT AT HARD SURFACES OR WATER

Shooting at water or hard surfaces can cause changes in the direction of the bullet, or ricochet, which may result in death, serious injury, and/or property damage.

2.5 NEVER USE ALCOHOL OR DRUGS THAT MAY IMPAIR MENTAL OR PHYSICAL ABILITY WHILE SHOOTING/HANDLING FIREARM

Do not use your firearm if you are impaired by alcohol, drugs, and/or medications that will hinder your physical and mental abilities.

2.6 FOLLOW PROPER MAINTENANCE PROCEDURES FOR YOUR FIREARM

In order to prevent accumulation of dirt or dust on operating parts, store your firearm in its original case once properly cleaned. Clean and lubricate your firearm after every use following the instructions found later in this manual in order to avoid any corrosion, barrel damage, and/or fouling.

Before loading the firearm, always check to ensure the barrel is free from any obstructions such as dirt, mud, oil, ammunition, or ammunition residuals.

Shooting against an obstruction can cause an increase in pressure and may damage your firearm and cause injury to yourself and others.

If the operation of your handgun has changed in relation to the way it sounds, stop firing, make sure the firearm is pointed in a safe direction, and unload the firearm. Check the chamber and barrel bore for any failure. If your handgun is not functioning properly in any way, discontinue use and have it inspected by a certified gunsmith.

2.7 USE PROPER AMMUNITION

Using incorrect types or calibers of ammunition may cause the firearm to jam. Only use factory-loaded ammunition that is newly manufactured within industrial specifications. Ensure all cartridges used are compatible with the caliber and type of your firearm.

2.8 ALWAYS WEAR SAFETY GLASSES AND HEARING PROTECTION SPECIFIED FOR FIREARM USE

A shooter should always wear impact resistant safety glasses and hearing protection when using any firearms to prevent hearing damage and vision loss.

2.9 ENSURE THAT YOU HAVE A COMPLETE UNDERSTANDING OF THE SAFETY FEATURES OF YOUR FIREARM

It is your responsibility to make yourself familiar with and utilize the safety features of your firearm. However, you should never rely on solely on these safety features to prevent accidents. The best way to prevent accidents is to follow the rules for safety and safe handling procedures defined in the product manual. Always keep your firearm pointed in a safe direction!

2.10 ENSURE BARREL IS CLEAR OF OBSTRUCTIONS

Always ensure the barrel of the firearm is clear of obstructions before firing. Never attempt to clear a jammed barrel by firing another round. Shooting against an obstruction can cause an increase in pressure and may damage your firearm and cause serious injury to yourself and others.

2.11 ALLOW ONLY AUTHORIZED/QUALIFIED GUNSMITHS TO UNDERTAKE REPAIR PROCEDURES

Do not attempt to repair damage or defects to the firearm. Only authorized/qualified gunsmiths should under repair procedures on the firearm. Do not make mechanical modifications to any part of the firearm. This can be dangerous. Doing so will void the warranty.

3. PRODUCT & FEATURES IDENTIFICATION

3.1 SUPPLIED COMPONENTS

The package supplied includes;

- 1 Firearm Case
- 1 Firearm
- 2 Magazines
- 1 Magazine Loader
- 3 Sizes of Interchangeable Backstraps (S, M, L)
- 1 Trigger Lock
- 1 Maintenance Kit

Note: Contents may change at any time.

3.2 FEATURES

BRG firearms are being manufactured with advanced technology based on experiences gained by producing them for shooting, police, and military services. This firearm utilizes a mechanical locked breech system and a semi-automatic, single-action firing system. The automatic striker safety and trigger safety allow for safe and secure carry of the firearm. The ergonomic pistol grip allows you to carry your firearm in comfort. The build and function of the firearm allow for precision sighting.

4. PUTTING YOUR PRODUCT INTO SERVICE

4.1 PRELIMINARY PREPARATION

Firearms are generally protected with a light coating of gun oil. Before using your firearm, clean your firearm and make sure the barrel does not have any excess oil. If there is excess oil, remove it by using a bore mop or patches to push through the barrel.

4.1.1 INSPECTING YOUR FIREARM

- a) Depress the magazine release and remove the magazine.
- b) Pull the slide to the rear, check to see that the chamber is clear and the bore is not obstructed.
- c) Grip the firearm firmly, depressing the grip safety, and pull the trigger. Your striker should release during this step

4.2 AMMUNITION

- a. Use only quality factory ammunition.
- b. Make sure that the caliber of the ammunition is compatible with your firearm.
- c. Using over-pressured cartridges or hand loads may not only cause damage to the firearm, which will void the warranty, but also can cause injury or death to yourself and/or bystanders.

4.3 FIRING

4.3.1 SAFETY CHECKS BEFORE FIRING

- a) Always keep the firearm pointed in a safe direction.
- b) Keep your finger off the trigger and out of the trigger guard until you're ready to fire.
- c) Before loading, be sure that any excess oil on the firearm is removed. Check to see that the chamber is clear (by pulling the slide to the rear) and the bore is not obstructed.
- d) It is not recommended that you load or unload your firearm anywhere other than a safe and designated area.
- e) Do not rely on the mechanical safety systems. Be sure you have read the manual carefully and understand it completely.

4.3.2 LOADING YOUR MAGAZINE

- a) Hold the magazine with your non-dominant hand.
- b) With your dominant hand, place a cartridge on the follower in front of the lips, press down, and slide the cartridge completely back under the lips.
- c) Repeat until the magazine is fully loaded.

WARNING: While loading cartridges, be careful to not damage the magazine lips. The number of cartridges currently loaded can be observed by holes on the rear side of magazine. Do not try to force more than the maximum indicated rounds into the magazine. Crushed and crooked cartridges can affect the function. Inspect cartridges prior to loading.

4.4 UNLOADING YOUR FIREARM

- a. Point the muzzle of the firearm in a safe direction.
- b. Depress the magazine release and remove the magazine.
- c. Pulling rearward on the slide will eject the live round from the chamber.
- d. While holding the slide in the rearward position, engage the slide release to lock open.
- e. Visually check the chamber to be sure it is empty.

5. SAFETY FEATURES

5.1 LOADED CHAMBER INDICATOR

The BRG9 Elite includes a loaded chamber indicator. The loaded chamber indicator will be raised above the barrel when a cartridge is in the chamber.

5.2 STRIKER STATUS INDICATOR / STRIKER SAFETY

The BRG9 Elite includes a striker status indicator. When the gun is cocked, the striker status indicator pin will protrude out of the slide. This indicates that the firearm is cocked and ready to fire if a round is loaded into the chamber. The firearm should always be treated as if it is loaded. Always keep your firearm pointed in a safe direction. The striker safety will prevent the firearm from discharging unless the trigger is pulled.

5.3 TRIGGER SAFETY

The BRG9 Elite includes a trigger safety. The trigger safety is a lever incorporated into the trigger. The trigger safety will prevent the trigger from being pulled unless the trigger safety is fully depressed. It is designed to prevent the firearm from firing if it is dropped or the trigger is accidentally depressed from the side.

5.4 GRIP SAFETY

The BRG9 Elite includes a grip safety. The grip safety is located at the top rear of the pistol grip. The firearm is designed not to fire unless the grip safety is fully depressed. The slide cannot be pulled to the rear unless the grip safety is deactivated.

WARNING: The safety features of the BRG9 Elite are intended to prevent accidental discharge of the firearm. However, safe firearm handling practices should always be followed. Always treat the firearm as if it is loaded and keep it pointed in a safe direction.

6. MAINTENANCE & CLEANING

6.1 MAINTENANCE AND CLEANING OF YOUR FIREARM

It is important to properly maintain your firearm in order to keep it in good working condition. You should clean and lubricate the firearm regularly, including after every use. This will prevent corrosion and remove dust, dirt, and debris which can affect the function of the firearm.

Read and follow the manufacturer's warnings before using solvents and cleaners. Remember that you are responsible for the proper care and maintenance of your firearm.

- Always ensure the firearm is unloaded before beginning cleaning.
- In order to keep the firearm as efficient as possible it must be kept clean and lubricated with good quality gun oil to prevent corrosion. This is especially necessary after use.
- It is important to clean all powder, lead, and other debris from the barrel and other adjacent parts using an appropriate bristle brush. Once cleaned, properly lubricate the firearm using the instructions on the following pages.

6.2 MAINTENANCE AND CLEANING KIT

Maintenance and Cleaning Kit contains the following items:

- Utility Brush
- Nylon Brush
- Wire Brush
- Microfiber Brush
- Lubricant or gun oil
- Cleaning Patch

6.3 CLEANING YOUR FIREARM

6.3.1 DISASSEMBLY

1. Remove the magazine by pushing the magazine release and pulling the magazine out of the frame. Rack the slide, utilizing the slide stop lever. Ensure both the chamber and barrel are clear.
2. Rotate the disassembly lever clockwise as far as it will go. Close the slide using the slide stop lever.
3. Once the slide is closed, pull the trigger as if firing a bullet. This will release the slide. Pull it off from the front of the frame.
4. Depress recoil spring and gently lift to remove it from the slide assembly.
5. Grasp the barrel lug, lifting it up and to the rear to remove it from the slide assembly.

6.3.2 CLEANING THE BARREL

1. Dampen the microfiber brush with gun cleaning solvent and push it through the barrel from the chamber end several times.
2. Dampen a cleaning brush with gun cleaning solvent and push it through the barrel from the chamber end. Push it back and forth several times to remove any fouling and burned powder.
3. Dampen the microfiber brush with gun cleaning solvent and push it through the barrel from the chamber end. If it is not clean, repeat steps 1 and 2 until the patch is clean after being pushed through the barrel.

4. Lightly dampen the microfiber brush with gun oil or lubricant and push it through the barrel from the chamber end to lightly oil the barrel.
5. Dampen the utility brush with gun cleaning solvent and thoroughly brush the outside of the barrel to remove any dirt or residue.
6. Using a cleaning patch, wipe the outside of the barrel dry. If the patch is not clean, repeat steps 5 and 6 until the patch remains clean.
7. Lightly lubricate the outside of the barrel by rubbing it with a cleaning patch with a few drops of gun oil or lubricant.

LUBRICATE WITH GUN OIL

6.3.3 CLEANING THE SLIDE

1. Dampen the utility brush with gun cleaning solvent and scrub the slide rails, breech face, and the area under the extractor claw.
2. Using a cleaning patch, wipe down the areas cleaned in the previous step. If the patch is not clean, repeat steps 1 and 2 until it remains clean.
3. Lightly lubricate the slides rails, breech face, and the area under the extractor claw by rubbing it with a cleaning patch with a few drops of gun oil or lubricant.

LUBRICATE WITH GUN OIL

6.3.4 CLEANING THE FRAME

1. Dampen a cleaning patch with gun cleaning solvent and wipe clean the exposed parts of the frame.
2. Using a cleaning patch, wipe down the exposed parts of the frame. If the patch is not clean, repeat steps 1 and 2 until the patch remains clean.
3. Lightly lubricate the guide rails and the backside of the trigger bar with a cleaning patch with a few drops of gun oil or lubricant.

6.3.5 CLEANING THE RECOIL SPRING & GUIDE ROD

LUBRICATE WITH GUN OIL

1. Dampen the utility brush with gun cleaning solvent and scrub the recoil spring and guide rod.
2. Using a cleaning patch, wipe down the recoil spring and guide rod. If the patch is not clean, repeat steps 1 and 2 until the patch remains clean.
3. Lightly lubricate the recoil spring and guide rod with a cleaning patch with a few drops of gun oil or lubricant.

WARNING: Avoid excessive lubrication. Over-lubrication can cause unburned powder and other debris to collect inside the firearm and prevent it from functioning properly.

WARNING: Never apply lubricants directly on ammunition. This may cause the powder in the cartridge to fail to ignite. The energy from the primer could push the bullet into the barrel where it may become lodged.

6.4 FUNCTION CHECK

Following cleaning and maintenance, it is recommended to check the function of the firearm.

1. Rack the slide rearwards and release. Make sure the slide moves freely. Remember not to ride the slide (pull back and release).
2. Without depressing the grip safety, pull the trigger in a safe direction. Make sure striker does not drop during this process.
3. Grip safety to fire; pull the trigger in a safe direction. Make sure striker drops during this process.

6.5 CHANGING THE BACKSTRAP

Your BRG9 Elite comes with three interchangeable backstraps sized small, medium, and large. The medium strap is installed from the factory. To change to a small or large backstrap:

1. Ensure that the firearm is unloaded by removing the magazine and checking the chamber.
2. Once unloaded, close the slide.
3. Use a small punch to push the grip release pin in either direction. The pin must be removed completely.
4. Pull down on the backstrap to remove.
5. Insert the desired backstrap by fitting the tab on the strap into the slot on the frame below the grip safety.
6. Push the backstrap release pin back into the backstrap and frame using a small punch and lightly tapping with a hammer.

8. PRODUCT REGISTRATION & WARRANTY

8.1 LIMITED LIFETIME WARRANTY

Congratulations on the purchase of your new BRG9 Elite. Pursuant to BRG's Limited Lifetime Warranty Policy, defects in material or workmanship associated with the firearm will be repaired without charge for the original purchaser as long as you own the firearm. This agreement is not transferable; its benefits apply only to the original purchaser. Firearm accessories are not covered under this policy.

8.1.1 LIMITATIONS OF WARRANTY

The BRG warranty will be void if any of the following occur:

- The product is not properly registered.
- The instructions in the Owner's Manual are not followed.
- Your BRG9 Elite firearm or any of its parts are altered or modified from their original state.
- Damage is caused by misuse, abuse, or improper maintenance.
- Your BRG9 Elite firearm is disassembled beyond the instructions in the manual.
- Reloaded, remanufactured, or hand-loaded ammunition or ammunition of a different caliber than your BRG9 Elite firearm is used.
- BRG9 Elite firearms used for range rentals or other similar programs are not eligible.

To the full extent permissible by applicable law, BRG and their employees, agents, distributors and partners do not make, and are not entitled to make, any warranty of any kind, express or implied, with respect to the BRG9 Elite firearm, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. The only limited warranty provided is from BRG, pursuant to terms and limitations stated herein. Nothing contained herein shall be interpreted as an implied or expressed warrant on behalf of BRG beyond the terms above.

8.2 PRODUCT REGISTRATION

Please register your firearm with BRG within 30 days of purchase. Proof of purchase, including a receipt or invoice, must be provided with your registration.

You can register your BRG9 Elite online at:

<http://brg-usa.com/product-registration>

8.3 PRODUCT SUPPORT

Please visit brg-usa.com for all support needs.

9. YOUTH HANDGUN SAFETY ACT NOTICE

- (1) **The misuse of handguns is a leading contributor to juvenile violence and fatalities.**
- (2) **Safely storing and securing firearms away from children will help prevent the unlawful possession of handguns by juveniles, stop accidents, and save lives.**
- (3) **Federal law prohibits, except in certain limited circumstances, anyone under 18 years of age from knowingly possessing a handgun, or any person from selling, delivering, or otherwise transferring a handgun to a person under 18.**
- (4) **A knowing violation of the prohibition against selling, delivering, or otherwise transferring a handgun to a person under the age of 18 is, under certain circumstances, punishable by up to 10 years in prison.**

FEDERAL LAW

The Gun Control Act of 1968, 18 U.S.C. Chapter 44, provides in pertinent part as follows:

18 U.S.C. 922(x)

(x)(1) It shall be unlawful for a person to sell, deliver, or otherwise transfer to a person who the transferor knows or has reasonable cause to believe is a juvenile—

- (A) a handgun; or
- (B) ammunition that is suitable for use only in a handgun.

(2) It shall be unlawful for any person who is a juvenile to knowingly possess—

- (A) a handgun; or

(B) ammunition that is suitable for use only in a handgun.

(3) This subsection does not apply to—

(A) a temporary transfer of a handgun or ammunition to a juvenile or to the possession or use of a handgun or ammunition by a juvenile if the handgun and ammunition are possessed and used by the juvenile—

- (i) in the course of employment, in the course of ranching or farming related to activities at the residence of the juvenile (or on property used for ranching or farming at which the juvenile, with the permission of the property owner or lessee, is performing activities related to the operation of the farm or ranch), target practice, hunting, or a course of instruction in the safe and lawful use of a handgun;

(ii) with the prior written consent of the juvenile's parent or guardian who is not prohibited by Federal, State, or local law from possessing a firearm, except—

(I) during transportation by the juvenile of an unloaded handgun in a locked container directly from the place of transfer to a place at which an activity described in clause (i) is to take place and transportation by the juvenile of that handgun, unloaded and in a locked container directly from the place at which such an activity took place to the transferor; or

(II) with respect to ranching or farming activities as described in clause (i), a juvenile may possess and use a handgun or ammunition with the prior written approval of the juvenile's parent or legal guardian and at the direction of an adult who is not prohibited by Federal, State or local law from possessing a firearm;

(iii) the juvenile has the prior written consent in the juvenile's possession at all times when a handgun is in the possession of the juvenile; and

(iv) in accordance with State and local law;

(B) a juvenile who is a member of the Armed Forces of the United States or the National Guard who possesses or is armed with a handgun in the line of duty;

(C) a transfer by inheritance of title (but not possession) of a handgun or ammunition to a juvenile; or

(D) the possession of a handgun or ammunition by a juvenile taken in defense of the juvenile or other persons against an intruder into the residence of the juvenile or a residence in which the juvenile is an invited guest.

(4) A handgun or ammunition, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection shall not be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner when such handgun or ammunition is no longer required by the Government for the purposes of investigation or prosecution.

(5) For purposes of this subsection, the term "juvenile" means a person who is less than 18 years of age.

(6)(A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant's parent or legal guardian at all proceedings.

(B) The court may use the contempt power to enforce subparagraph (A).

(C) The court may excuse attendance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

18 U.S.C. 924(a)(6)

(6)(A)(i) A juvenile who violates section 922(x) shall be fined under this title, imprisoned not more than 1 year, or both, except that a juvenile described in clause (ii) shall be sentenced to probation on appropriate conditions and shall not be incarcerated unless the juvenile fails to comply with a condition of probation.

(ii) A juvenile is described in this clause if—

(I) the offense of which the juvenile is charged is possession of a handgun or ammunition in violation of section 922(x)(2); and

(II) the juvenile has not been convicted in any court of an offense (including an offense under section 922(x) or a similar State law, but not including any other offense consisting of conduct that if engaged in by an adult would not constitute an offense) or adjudicated as a juvenile delinquent for conduct that if engaged in by an adult would constitute an offense.

(B) A person other than a juvenile who knowingly violates section 922(x)—

(i) shall be fined under this title, imprisoned not more than 1 year, or both; and

(ii) if the person sold, delivered, or otherwise transferred a handgun or ammunition to a juvenile knowing or having reasonable cause to know that the juvenile intended to carry or otherwise possess or discharge or otherwise use the handgun or ammunition in the commission of a crime of violence, shall be fined under this title, imprisoned not more than 10 years, or both.

10. STATE REQUIRED SAFETY WARNINGS

Certain states have laws requiring that specific warnings be provided with handguns sold in those states. State laws and regulations concerning firearms may change at any time. Please check for any additional laws and regulations regarding the storage and use of firearms in your area.

10.1 CALIFORNIA

WARNING

Firearms must be handled responsibly and securely stored to prevent access by children and other unauthorized users. California has strict laws pertaining to firearms, and you may be fined or imprisoned if you fail to comply with them. Visit the Web site of the California Attorney General at <https://oag.ca.gov/firearms> for information on firearm laws applicable to you and how you can comply. Prevent child access by always keeping guns locked away and unloaded when not in use. If you keep a loaded firearm where a child obtains and improperly uses it, you may be fined or sent to prison.

ADVERTENCIA

Las armas de fuego deben operarse con responsabilidad y mantenerse guardadas en un lugar seguro fuera del alcance de niños o usuarios no autorizados. California tiene leyes estrictas con respecto a armas de fuego, y Usted puede ser multado o enviado a prisión por su incumplimiento con estas regulaciones. Visite la página web del Fiscal General de California en <https://oag.ca.gov/firearms> para obtener información acerca de las regulaciones sobre armas de fuego aplicables a su situación y que debe hacer para cumplir con ellas. Prevenga que niños tengan acceso a armas de fuego manteniéndolas descargadas y guardadas bajo llave cuando no las esté utilizando. Si Usted mantiene un arma de fuego cargada donde un niño pueda tener acceso y la usa de manera inapropiada, Usted puede resultar multado o enviado a prisión.

10.2 CONNECTICUT

No person shall store or keep any loaded firearm on any premises under such person's control if such person knows or reasonably should know that (1) a minor is likely to gain access to the firearm without the permission of the parent or guardian of the minor, (2) a resident of the premises is ineligible to possess a firearm under state or federal law, or (3) a resident of the premises poses a risk of imminent personal injury to himself or herself or to other individuals, unless such person (A) keeps the firearm in a securely locked box or other container or in a location which a reasonable person would believe to be secure, or (B) carries the firearm on his or her person or within such close proximity thereto that such person can readily retrieve and use the firearm as if such person carried the firearm on his or her person.

For the purposes of this section, "minor" means any person under the age of sixteen years.

Criminally negligent storage of a firearm is a class D felony. Unlawful storage of a loaded firearm may result in imprisonment or fine.

10.3 FLORIDA

It is unlawful, and punishable by imprisonment and fine, for any adult to store or leave a firearm in any place within the reach or easy access of a minor under 18 years of age or to knowingly sell or otherwise transfer ownership or possession of a firearm to a minor or person of unsound mind.

10.4 MAINE

Endangering the welfare of a child is a crime. If you leave a firearm and ammunition within easy access of a child, you may be subject to fine, imprisonment, or both. Keep firearms and ammunition locked up. Use trigger locks.

10.5 MARYLAND

WARNING: Children can operate firearms which may cause death or serious injury. It is a crime to store or leave a loaded firearm in any location where an individual knew or should have known that an unsupervised minor would gain access to the firearm. Store your firearm responsibly!

10.6 MASSACHUSETTS

WARNING FROM THE MASSACHUSETTS ATTORNEY GENERAL: This handgun is not equipped with a device that fully blocks use by unauthorized users. More than 200,000 firearms like this one are stolen from their owners every year in the United States. In addition, there are more than a thousand suicides each year by younger children and teenagers who get access to firearms. Hundreds more die from accidental discharge. It is likely that many

more children sustain serious wounds, or inflict such wounds accidentally on others. In order to limit the chance of such misuse, it is imperative that you keep this weapon locked in a secure place and take reasonable preventive steps necessary to limit the possibility of theft or accident. Failure to take reasonable preventative steps may result in innocent lives being lost, and in some circumstances may result in your liability for these deaths.

It is unlawful to store or keep a firearm, rifle, shotgun or machine gun in any place unless that weapon is equipped with a tamper-resistant safety device or is stored or kept in a securely locked container.

10.7 NEW JERSEY

It is a criminal offense to leave a loaded firearm within easy access of a minor.

10.8 NEW YORK CITY

The use of a locking device or safety lock is only one aspect of responsible firearms storage. For increased safety, firearms should be stored unloaded and locked in a location that is both separate from their ammunition and inaccessible to children and other unauthorized persons.

10.9 NORTH CAROLINA

Any person who resides in the same premises as a minor, owns or possesses a firearm, and stores or leaves the firearm (i) in a condition that the firearm can be discharged and (ii) in a manner that the person knew or should have known that an unsupervised minor would be able to gain access to the firearm, is guilty of a Class 1 misdemeanor if a minor gains access to the firearm without the lawful permission of the minor's parents or a person having charge of the minor and the minor: (1) Possesses it in violation of G.S. 14-269.2(b) (2) Exhibits it in a public place in a careless, angry, or threatening manner; (3) Causes personal injury or death with it not in self-defense; or (4) Uses it in the commission of a crime.

It is unlawful to store, transport, or abandon an unsecured firearm in a place where children are likely to be and can obtain access to the firearm.

10.10 WISCONSIN

If you leave a loaded firearm within the reach or easy access of a child you may be fined or imprisoned or both if the child improperly discharges, possesses, or exhibits the firearm.
